## **Consolidated Fuel Systems™ Acquires Great Planes Fuel Metering**

Consolidated Fuel Systems is pleased to announce the acquisition of Great Planes Fuel Metering, Inc. For over 17 years, Great Planes Fuel Metering has serviced the general aviation industry, providing high quality overhauled fuel systems. Consolidated Fuel Systems has been an affiliated brand of the Tempest Aero Group® since 2015 providing overhauled fuel pumps and fuel injection systems.

Dave Dewell, President of Great Planes has had a long career overhauling, maintaining, and troubleshooting a variety of aircraft fuel systems. In 2007 he desired to venture out on his own and opened Great Planes Fuel Metering.

Great Planes provides overhaul services on various fuel pumps and systems with a unique expertise on fuel injection systems eligible on Continental™ engines. Consolidated Fuel Systems is a Class 1 FAA Approved Repair Station authorized to repair and overhaul Lear-Romec™ fuel pumps and fuel injection systems for Continental engines. The acquisition of Great Planes Fuel Metering will enable Consolidated Fuel Systems to offer a more comprehensive product offering to better serve its customers and expand into new markets.

"Great Planes has a long-standing reputation for providing high-quality overhauled fuel systems and customer support that exceeds customer expectations" said John Herman, Vice President of Sales & Marketing for Tempest Aero Group. "We recognize the responsibility we have undertaken and the trust that Dave has placed in our team to continue the legacy business he has built."

Consolidated Fuel Systems provides high quality fuel systems overhauled at their Burlington, NC facility. They are an affiliate brand of Tempest Aero Group, also based in Burlington. Other Tempest Aero Group affiliated brands include, Marvel-Schebler Carburetors®, Precision Airmotive®, Alcor®, Stratus Tool Technologies™ and Tempest®.

Tempest Aero Group is part of the General Aviation Group of Vance Street Capital. Nicholas Janneck, Partner at Vance Street, added, "Vance Street is pleased to partner with Consolidated Fuel Systems adding to their overhaul capabilities with the acquisition of Great Planes. This strategic acquisition brings together two industry pioneers renowned for their commitment to innovation, quality, and customer satisfaction."

This acquisition further solidifies Vance Street's commitment to the general aviation, aerospace, and defense markets. Other active Vance Street investments include Jet Parts Engineering, Spectra A&D Holdings, Tempest Aero Group, and McFarlane Aviation.
